RE: Inquiry Regarding Progress on Anti-Discrimination Initiatives

Colonel Candice Frost
Commander, Joint Intelligence Operations Center
US Cyber Command

Dear Col. Frost,

Please accept my thanks for your leadership at the U.S. Cyber Command.

My name is Ashar Ahmed - I am a Computer Science / Cyber Security student at Dalhousie University (Halifax, NS) and former tech & policy analyst, originally from New York.

During my service in Canada, I witnessed and was subject to discrimination within the workplace. At home, the *U.S. EEOC* works hard to combat this issue, but I'm curious to know of any work the US Cyber Command is doing in this area to ensure service is accessible and open to all.

Thank you again for reading and your leadership.

Thanks / Merci,

A handwritten signature in black ink that reads "A. Ahmed". The script is fluid and cursive, with the first letter 'A' being particularly large and stylized.

Ashar (he/him, il/lui)
