## **RE: Open Statement Regarding the Growing National Security Crisis**

The Government of Canada **must** respond to the growing National Security crisis at institutions across our country. Fundamental rights and freedoms are being ignored and our Federal Government must step in to ensure Charter rights are upheld.

If other bodies do not act, the Federal Government **must**, in order to ensure **peace, order, and good government**.

A handwritten signature in black ink that reads "A. Ahmed". The script is cursive and fluid, with the first letter 'A' being particularly large and stylized.

Ashar Ahmed.
